Immediately after the first signature was attached, the wireless on Eiffel tower flung the news to the world. It was picked up by every wireless station in Europe and satuted by salvos of artillery at every allied fortification.

There was little of the world-wide oy and exuberance evidenced by the man who set around the peace table. In the past it has been customary to exchange felicitations with the enemy delegations. Nothing of the sort was apparent today.

It was generally accepted that the German national assembly will ratify the treaty at once in order that the nation may get back to a peace basis and endeavor to build up its economic
